## **DETAILED ACTION**

### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species of claims 148, 149, 153, 155 - 157 and 195 and 200 – 201, 205, 207 – 209 and 247.

Species of claims 150 – 152 and 194 and 202 – 204 and 246

Species of claims 154 and 206

Species of claims 158 – 160 and 210 – 212

Species of claims 162 – 165 and 214 – 217

Species of claims 166 and 218

Species of claims 167 - 171 and 219 – 223

Species of claims 172 – 175, 186 and 224 – 227 and 238

Species of claims 176 and 228

Species of claims 177 and 229

Species of claims 178 and 230

Species of claims 179 and 231

Species of claims 180 and 232

Species of claims 181, 182, 184 and 233, 234 and 236

Species of claims 183 and 235

Species of claims 185 and 237

Species of claims 187 – 193, 196 and 239 – 245 and 248

Species of claim 197

Species of claim 198

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 147 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
